

April is here and the main ski season is on the way out in most parts of the country. Those who race will be enjoying a couple of weeks of trying to get some free skiing in before looking at getting ready for the summer camp schedule. So why not wrap up the season with a bang! Swix is doing a site wide extra 10% off your current discount. Get that spring wax so you don't stick to the warm wet conditions. Stock up for next season or just the summer. Look over all your tools and wax to see what has been used hard all winter and may need replacing. Get it now so when next season starts you are ready to heat up the wax roller and prep those edges and not worry about what tools and wax you may be missing. For those that take the summer off to pursue other sports, get what you need to properly store your skis for the summer and know they are ready for when the snow flies again.

Enter code: **Extra10** at checkout for the extra 10% off in addition to your existing discount
